for the _____ Summer _____ Fall _____ Spring semester _____
(check one) (year)

Faculty Supervisor's Name: _____

Asper Fellowship Conditions

Students are limited to a single three credit Asper Fellowship during their law school careers. To earn three credits, students are expected to devote 140 hours during the semester to their Asper placement. In an effort to better integrate the Asper experience with a student's legal education, students participating in the Asper Program in the fall and spring semesters are required to attend **in the same semester six sessions total** conducted by the Asper Administrator. Students participating in the Asper Program in the summer semester are required to participate on Blackboard (**approximately six Blackboard assignments total**) conducted by the Asper Administrator.

An Asper Fellowship must be taken under the supervision of a full time faculty member. Students interested in taking an Asper Fellowship must, prior to registration, contact the Asper administrator.

During the semester in which the student takes the Asper, the student must:

- a. submit to the faculty supervisor a brief statement of the student's educational goals for the Asper Placement;
- b. meet with their faculty supervisor at least three times per semester and submit to the faculty supervisor at least three written summaries outlining the work performed by the student;
- c. during the fall and spring semesters, students are required to attend in the same semester six sessions total conducted by the Asper Administrator. The sessions include presentations by practicing attorneys, judges and a community service project.

During the summer semester, students are required to participate on Blackboard (approximately six Blackboard assignments total) conducted by the Asper Administrator and

- d. submit to both the Asper Administrator and their faculty supervisor a reflective paper (5-8 pages in length) evaluating the Asper experience and its contribution to the student's legal education.

The Asper shall be graded on a credit/no credit basis. Prior to grading the Asper, the faculty advisor shall consult with the Asper Administrator and field placement Asper supervisor.
