PROGRAM
This program will examine how MOLST has been implemented in its first six months by identifying and discussing best practices as well as barriers to implementing it successfully. Attendees should have already attended a MOLST workshop or viewed the open-access MOLST workshop that is available on the UM Carey Law website (http://www.law.umaryland.edu/mhecn and click on Conferences).

OBJECTIVES
1. Identify best practices for how MOLST has been implemented in Maryland since July 1, 2013.
2. Discuss strategies to improve how MOLST orders and advance directives are completed and interpreted by clinicians to improve end-of-life care in Maryland.
3. Recognize effective communication skills surrounding identifying individuals' end-of-life treatment preferences and documenting these in an advance directive and a MOLST form.
4. Explore how Maryland’s Health Care Decision’s Act impacts how MOLST orders are completed and interpreted as regards to medically ineffective treatment.
