Adding a link to HeinOnline materials in Blackboard

1. Find the article you want to link to in HeinOnline.

2. Over the document, on the right-hand side of the screen, is a set of buttons. Click the “Permanent link to this page” button:

3. The URL will go from being extremely long...

   ![Image of a link button]

   ![URL before button click]

   ![URL after button click]

   ...to somewhat shorter (this will be the only change you will see when you click the “Permanent link” button):

4. Copy the new link by selecting it and either choosing Edit/Copy with your mouse, or using the Control+C command on your keyboard.
5. In the Blackboard area where you would like to place the resource, click “Build Content” and select “URL.”

6. Name the reading and paste the URL into the space as marked:
7. Go back to the beginning of the URL entry area (place your cursor before the “http” in the Hein material’s URL either by holding down the left arrow or using the “Home” button) and enter this string in front of the Hein URL to run the students’ request through EZProxy: 

```
http://ezproxy.law.umaryland.edu/login?auth=Library&url=
```

8. Scroll down to Section 3 and click “Yes” for “Open in New Window:”

```
3. Options

<table>
<thead>
<tr>
<th>Permit Users to View this Content</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Open in New Window</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Track Number of Views</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Select Date and Time Restrictions</td>
<td>Display After</td>
<td></td>
</tr>
</tbody>
</table>

Enter dates as mm/dd/yyyy. Time may be entered in any increment.
```

9. Click “Submit.” When students click on the link in Blackboard, the request will be routed appropriately through EZProxy, opening a new window so students can view the Hein material without Hein’s site being opened within Blackboard.
