Brief Summary of Pertinent Experience (no more than 50 words):

Fusion provides workshop and retreat to create connection and community, across diverse perspectives, to reduce conflict and build a more tolerant and peaceful school environment.

Specific Areas of Expertise or training topics in Conflict Resolution Education:

Fusion can provide workshops, retreats and programs to individual schools to support the following goals:

- Build relationships, connections and understanding to create a safe, respectful, accepting, and peaceful environment.
- Build leadership among students to sustain and carry forward the goals of a peaceful and accepting environment which honors diversity and reduces conflict
- Educate staff and students on issues of multicultural understanding and diversity as a means to reduce conflict

. We utilize popular culture and educational methods geared toward youth. We believe that if youth become engaged as leaders in community building, multicultural knowledge, and conflict resolution in their schools, than these programs can be sustained.
