Introduction

This select chronology and resource guide provides information on congressional and presidential actions and also documents events concerning the FY2004 budget. It contains sequential sections on budget actions in FY2004 including the submission of the President’s budget in February, legislative action on the Congressional Budget Resolution passed in April 2003 (H.Con.Res. 95), budget reconciliation legislative action, and major legislative actions involving the 13 FY2004 appropriations bills and FY2004 supplemental appropriation measures.

This report also provides a section entitled “Where Can I Find ... on the Internet?” that includes entries for information via the Internet on appropriations bills, budget background, glossary information, costs estimates, federal debt, and financial statements. The appendix of this report provides telephone, address, and Internet contact information for resources related to FY2004 budget actions. See Table 1 for websites on budget legislation and CRS publications.

This report does not provide in-depth information on budget procedures involved in these actions. More detailed information on budget activities taking place in calendar year 2003 appears in CRS Report RL31754, Congressional Budget Actions in 2003, and in CRS reports on specific types of actions or procedures referred to in the “Selected CRS Products” section of this report.

The FY2004 Budget Resolution

The budget resolution is a concurrent resolution in which Congress establishes or revises its plan for the federal budget’s broad financial features for the upcoming fiscal year and several additional fiscal years. As with other concurrent resolutions, it does not have the force of law, but it provides the framework within which Congress subsequently considers revenue, spending, and other budget-implementing legislation.

FY2004 Budget Chronology of Events

Internet addresses for the House and Senate Budget Committees, the Congressional Budget Office (CBO) publication Monthly Budget Review, and the House and Senate Appropriations Committees appear in the “Where Can I Find ... on the Internet?” section, below.

01/10/03 — CBO releases Monthly Budget Review.

01/29/03 — Senate Budget Committee hearing: The State of the Economy.

01/29/03 — CBO releases The Budget and Economic Outlook: Fiscal Year 2003-201, see [http://www.cbo.gov/showdoc.cfm?index=4032&sequence=0]. The CBO baseline projections in this report are based on the assumption that current laws and policies remain unchanged, as well as on various estimates and assumptions about how the economy will behave and government programs will operate.

CBO projects that if current policies remained in place, the budget deficit would grow from $158 billion in 2002 to $199 billion in 2003. In nominal dollars, such a deficit would be the largest since 1994; however, at 1.9% of the gross domestic product (GDP), it would be well below the share of the economy that deficits accounted for in the 1980s through the mid-1990s. Under CBO’s adjusted baseline, deficits would continue to shrink after 2004, and a small budget surplus of $26 billion would emerge in 2007.¹

01/30/03 — Senate Budget Committee hearing: The Budget and Economic Outlook. Testimony by Acting CBO Director Barry B. Anderson.

03/06/03 — CBO publishes *Budget Options, March 2003,* intended to help inform policymakers about options for the federal budget. The report presents a broad range of possibilities, focusing on the effects of paying down the debt, options to cut spending or to increase it, and options to cut taxes or to increase revenues. [http://www.cbo.gov/showdoc.cfm?index=4066&sequence=0]

03/06/03 — House Budget Committee hearing: *Member’s Day Budget Priorities, FY2004.*

03/07/03 — CBO releases *An Analysis of the President’s Budgetary Proposals for Fiscal Year 2004* [http://www.cbo.gov/showdoc.cfm?index=4129&sequence=0]. Under the President’s proposals, CBO’s revised baseline estimates that the deficit at the end of FY2003 and FY2004 would rise to $287 billion and $338 billion, respectively. Under the President’s plan, over the 2004-2013 period, revenues would grow at an average annual rate of 6.5%, while the growth in outlays would slow to an average annual rate of 4.9%. Over those 10 years, under the President’s policies, deficits would persist but slowly decline, totaling roughly $1.8 trillion. However,
annual deficits would be small as a percentage of the economy — less than 2% in most years.

03/10/03 — CBO releases *Monthly Budget Review*

03/12/03 — House Budget Committee hearing: *FY2004 Budget Resolution Markup*. Proceedings include consideration of the Chairman’s mark [http://www.house.gov/budget/congbudget.htm]. See Table 3 above, the FY2004 Budget Resolution Chart of FY2004 Legislative Action.

03/26/03 — Senate passes H.Con.Res. 95 by a vote of 56-44, roll call vote #108. The Senate then vitiated the previous S.Con.Res. 23, after incorporating Senate amendments into H.Con.Res. 95 by unanimous consent. See Table 3 above on the FY2004 Budget Resolution Chart of Legislative Action.

04/02/03 — Conference Committee hearing held on the FY2004 Budget Resolution, H.Con.Res.95.

04/09/03 — CBO releases *Monthly Budget Review*.

04/16/03 — President signs the Emergency Wartime Supplemental Appropriations Act, 2003, P.L. 108-11. This act contains a total of $78.45 billion in supplemental FY2003 funding. The largest fund contains $59.9 billion for the Department of Defense Emergency Response fund for costs associated with the war in Iraq, the continued U.S. presence in Afghanistan, enhanced security at U.S. military bases, and postwar occupation in Iraq. The bill also contains funding for airline assistance, homeland security programs, and international food aid for Iraq. For more details on this legislation, see CRS Report RL31829, *Supplemental Appropriations FY2003: Iraq Conflict, Afghanistan, Global War on Terrorism, and Homeland Security*.

05/09/03 — CBO releases *Monthly Budget Review*.

05/27/03 — President signs P.L. 108-24 (H.J.Res. 51), increasing the statutory limit on the public debt. The enactment of this legislation raised the statutory debt limit by $984 billion to $7.384 trillion from the previous limit of $6.4 trillion enacted on June 28, 2002, P.L. 107-199. The House adoption of H.Con.Res. 95, the FY2004 Budget Resolution, on April 11, 2003, generated debt limit legislation (H.J.Res. 51)
“deemed passed by the House.” The Senate passed H.J.Res. 51 on May 23, 2003, by a vote of 53-44 (S. vote 202).²

06/09/2003 — CBO releases Monthly Budget Review.

06/20/2003 — S.Rept. 108-77 is filed containing 302(b) allocations to Senate appropriations subcommittees.

06/23/2003 — H.Rept. 108-171 is filed containing 302(b) allocation to House appropriations subcommittees.

07/15/2003 — OMB releases the OMB Mid-Session Review. This update of the President’s FY2004 Budget contains revised estimates of the budget deficit, receipts, outlays, and budget authority for FY2003 through FY2008, and other summary information as required by statute. The OMB estimate for the FY2003 deficit is $455 billion, up from the $304 billion deficit estimated by OMB in February 2003. OMB cites weaker than expected economic growth, new funding for Operation Iraqi Freedom, enactment of larger than previously proposed “jobs and growth” legislation, and other legislation and policy changes as reasons for the increased deficit estimates. The OMB estimated deficit for FY2004, $475 billion, will fall to an estimated level of $226 billion in FY2008. [http://www.whitehouse.gov/omb/budget/fy2004/msr.html]

07/16/2003 — House Budget Committee hearing: OMB Mid-Session Review. Testimony by OMB Director Joshua Bolten.

08/08/2003 — CBO releases Monthly Budget Review.

08/26/2003 — CBO releases *The Budget and Economic Outlook: An Update* [http://www.cbo.gov/showdoc.cfm?index=4493&sequence=0]. CBO projects that current policies will produce deficits of $401 billion in 2003 and $480 billion in 2004. The CBO deficit projection for 2003 is $54 billion less than the OMB projection issued in the July 2003 OMB *Mid Session Review.* The CBO baseline deficit projection for 2004 is $5 billion more than OMB figures released in July (and $22 billion higher than OMB’s baseline). The CBO notes that the deficits “reflect the recent economic slowdown as well as legislation enacted over the past few years that has reduced revenues and rapidly increased spending for defense and many other programs.” The CBO projects a decline in baseline deficits beginning in FY2005, which becomes a surplus beginning in FY2012. The projection assumes that budget authority for discretionary programs will grow at a rate of inflation (projected to average 2.7% over the next 10 years, a much lower rate of growth than experienced over the last several years), and that current policies will remain in place, including the future automatic repeal of most of the tax cuts adopted over the last three years.

09/17/2003 — The President submits a request to Congress for 2004 supplemental appropriations for ongoing military and intelligence operations in Iraq, Afghanistan, and elsewhere. The request totals $87 billion that primarily funds ongoing military operations in Iraq and Afghanistan, as well as relief and reconstruction activities in those countries. The request includes $65.6 billion for Department of Defense and classified activities, $20.3 billion for the Iraq Relief and Reconstruction Fund for use by the Iraq Coalition Provisional Authority, $800 million for security and reconstruction needs in Afghanistan, and $140 million for State Department operations in Iraq. The text of the President’s request is available on the OMB Supplementals, Budget Amendments, and Releases Internet site at [http://www.whitehouse.gov/omb/budget/amendments.htm], click on estimate 17.3

---

10/20/2003 — Treasury Secretary John Snow and OMB Director Joshua Bolton announce actual budget results for the fiscal year that ended September 30, 2003. Federal receipts for FY2003 totaled $1,782 billion and federal outlays totaled $2,157 billion. The actual federal deficit for FY2003 was $374 billion. For further details, see [http://www.ustreas.gov/press/releases/js916.htm].

12/05/2003 — CBO releases Monthly Budget Review.

12/16/2003 — The President signs the fifth Continuing Appropriations Act for FY2004, P.L. 108-185. Like the fourth continuing resolution, this legislation provides continued appropriations at the FY2003 level through January 31, 2004, but contains additional provisions for two programs. It increases the Federal Housing Administration (FHA) loan guarantee to $7.7 billion and provides funding for the Federal Aviation Administration (FAA) Office of Security and Investigations.

Debt

The gross federal debt as of September 30, 2003, the end of FY2003, was $6,783,231,062,743.62. The gross federal debt as of September 30, 2002, the end of FY2002, was $6,228,235,965,597.16.

“Debt held by the Public.” Federal debt consists of two components: debt held by the public and debt held by intragovernmental holdings such as Social Security and other trust funds. [http://www.publicdebt.treas.gov/opd/opdpdodt.htm]

The debt held by the public as of September 30, 2003, the end of FY2003, was $3,924,090,106,880.88. The debt held by the public as of September 30, 2002, the end of FY2002, was $3,553,180,247,874.74. This component of the gross federal debt was reduced by $453 billion between the beginning of FY1998 and the end of FY2001. The federal government accrued a federal deficit beginning in FY2002, which has precluded reductions in federal debt held by the public.
