ABOUT

The Local Food Connection is a program works to support the economy of neighboring communities in West Baltimore by using institutional purchasing power. Small but frequent catering purchases are an ideal way to build reliable revenue streams that help neighborhoods retain food businesses that hire local workers, improve local properties, and make food available to community members.

Participating local small businesses receive access to training, technical assistance, marketing support, and other resources to help them succeed in selling food to buyers like you. To ensure accountability to the community, the program is governed by a coalition of community organizations, anchor institutions such as UMB and UMMC, and neighborhood leaders.

You are being invited to this food fair because you purchase, or advise the purchase of, food for meetings or events. If someone else in your office would be more appropriate to attend, please forward the invitation to him or her.
