

HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (MAC)

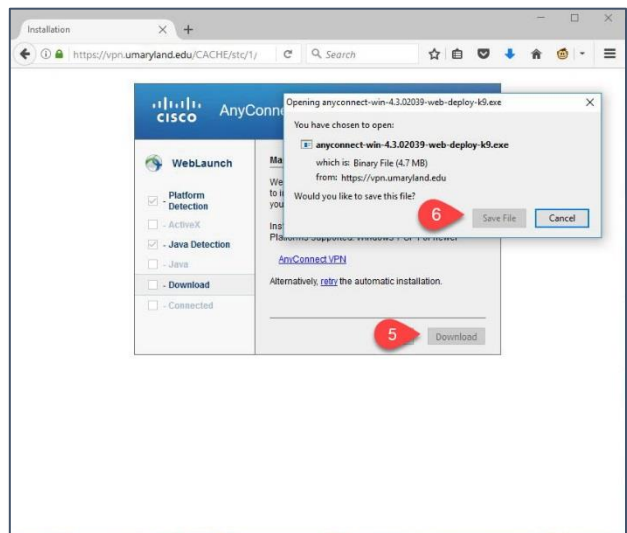

In a browser address bar, type: vpn.umaryland.edu.

When prompted, enter your UMID, password and select the VPN group. In this case, select **LAW** or **Law Clinic Students** from the drop down list as appropriate.

The Web-based Installer window will appear. Download and Save File to save the Installer to your computer

HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (MAC)

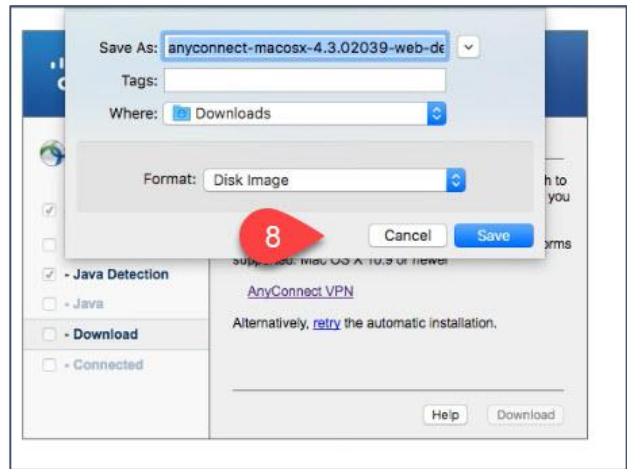

If you try the install and it is unsuccessful, it is because the Java VM check failed. To continue the Installation, Click the [AnyConnect VPN](#) link to use the Manual Installation.

Once the file has downloaded, click Save to save the file to your computer.

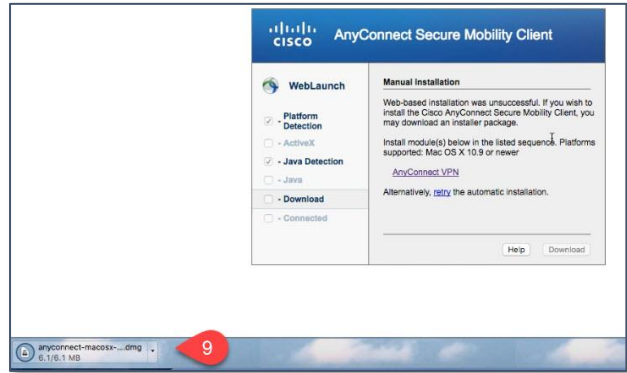

Depending upon your connection speed, the download & install times will vary.

Please be patient!

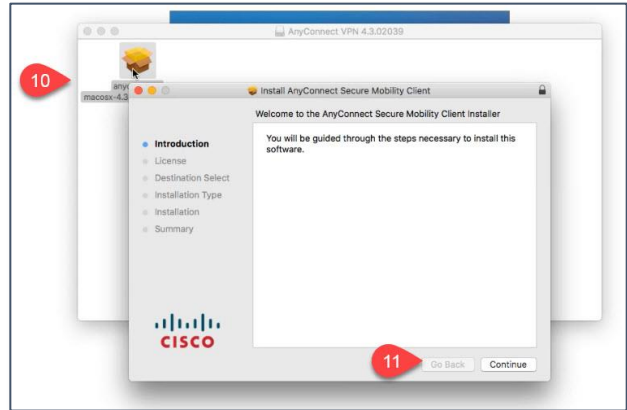

HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (MAC)

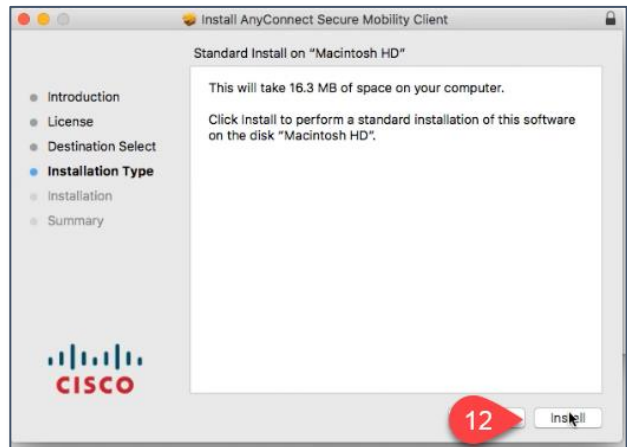

Once the download file finishes, double-click the .dmg download.

Next, double click the .pkg icon. Click the Continue button to start the installer. In the next two windows, select all prompts.

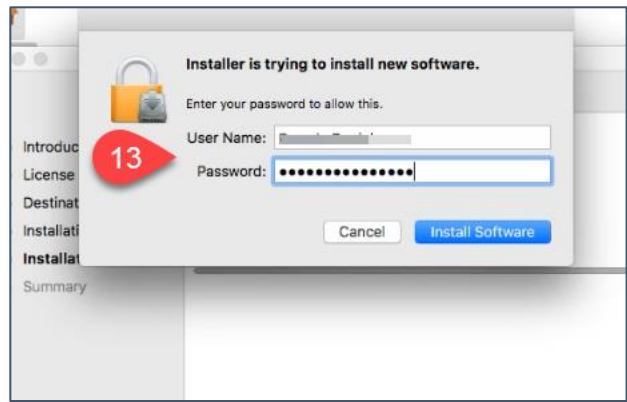

Select Install to finish the VPN installation.

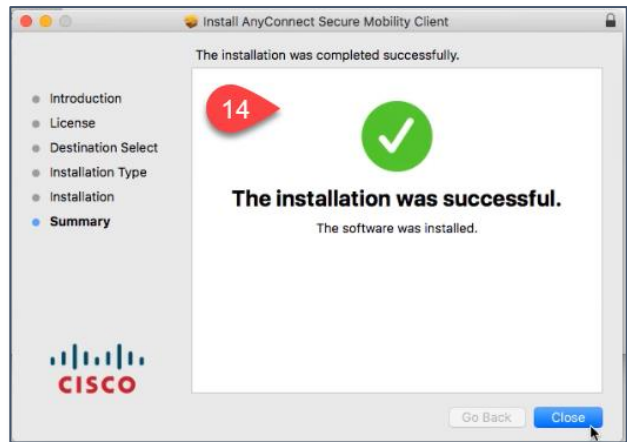

HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (MAC)

Enter your Mac's User Name and Password to acknowledge the install.

Once finished, you will receive a message letting you know that the installation was successful.

Call the Information Technology helpline at 410-706-5771 or send an email to infotech@law.umaryland.edu for help if needed.
