

## HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (PC)

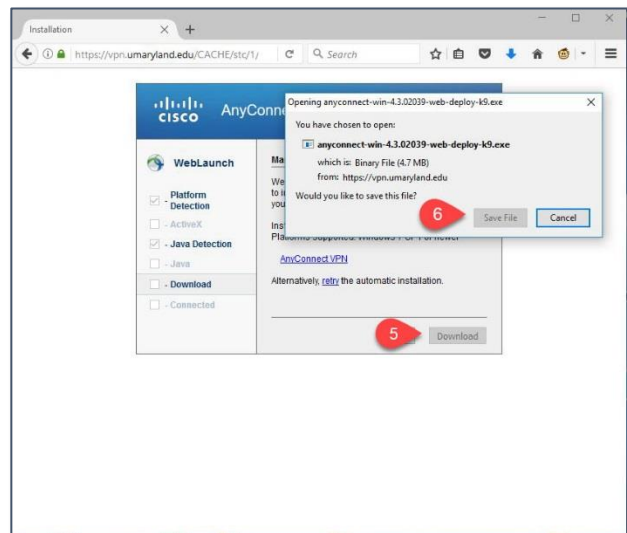

In a browser address bar, type: [vpn.umaryland.edu](https://vpn.umaryland.edu).

When prompted, enter your UMID, password and select the VPN group. In this case, select **LAW** or **Law Clinic Students** from the drop down list as appropriate.

The Web-based Installer window will appear. Download and Save File to save the Installer to your computer

## HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (PC)

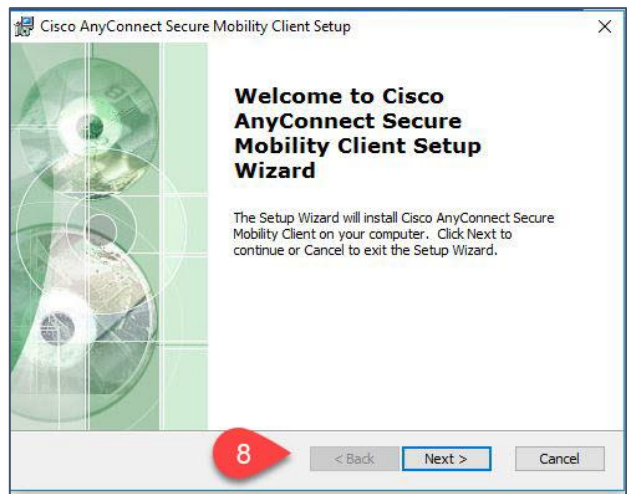

If you try the install and it is unsuccessful, it is because the Java VM check failed. To continue the Installation, Click the **AnyConnect VPN** link to use the Manual Installation.

Begin the install.

Depending upon your connection speed, the download & install times will vary.

**Please be patient!**

## HOW TO INSTALL VPN FOR LAW REMOTE DESKTOP CONNECTION (PC)

Once the installation has completed, you should see a “connection established” status box in your browser screen.

You will also briefly see a blue box just above the system tray at the lower right of your screen and an icon in the system tray to indicate you are connected.

Close your browser.
