

HOW TO USE VPN FOR LAW REMOTE DESKTOP CONNECTION (PC)
With multi-factor authentication/DUO

Click Start, and search for "Cisco". Click "AnyConnect Secure Mobile Client"

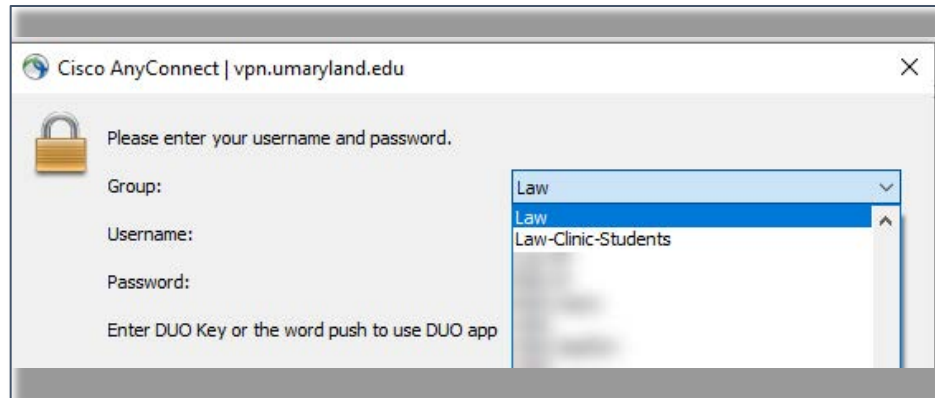

In the box, type "vpn.umaryland.edu" and click Connect.

HOW TO USE VPN FOR LAW REMOTE DESKTOP CONNECTION (PC) With multi-factor authentication/DUO

In the next box, select from the down arrow and choose your Group, depending on your affiliation. "Law or Law-Clinic-Students"

The screenshot shows the Cisco AnyConnect login window for vpn.umaryland.edu. It contains a padlock icon and the text "Please enter your username and password." Below this are four input fields: "Group:", "Username:", "Password:", and "Enter DUO Key or the word push to use DUO app". The "Group:" dropdown menu is open, showing "Law" as the selected option and "Law-Clinic-Students" as an alternative option.

Once this is selected, you will put in the rest of your information:

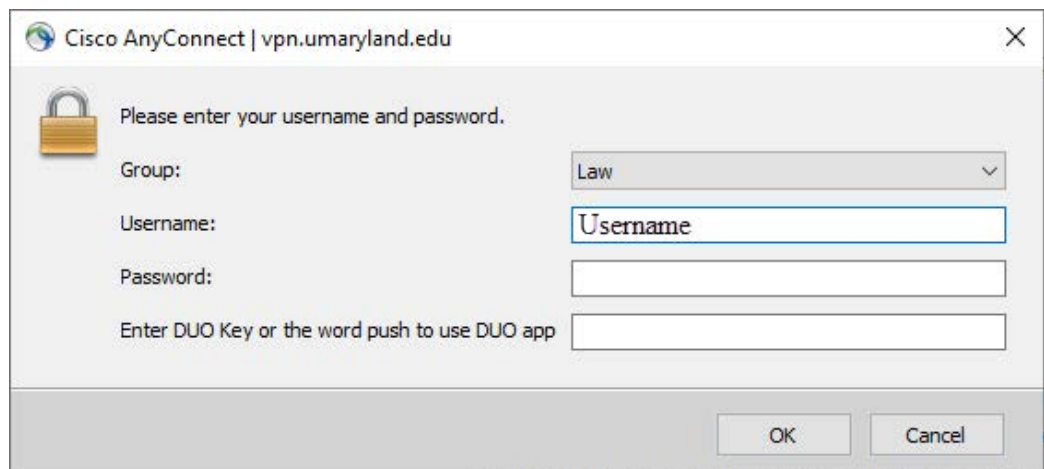

Enter your UMID in the Username box and your UMBID Password in the first Password box.

Options for Second Password include

1 • push
Sends a DUO confirmation request to the DUO Mobile app on your phone or tablet

2 • passcode
Enter the passcode generated on the DUO Mobile app or hardware token.

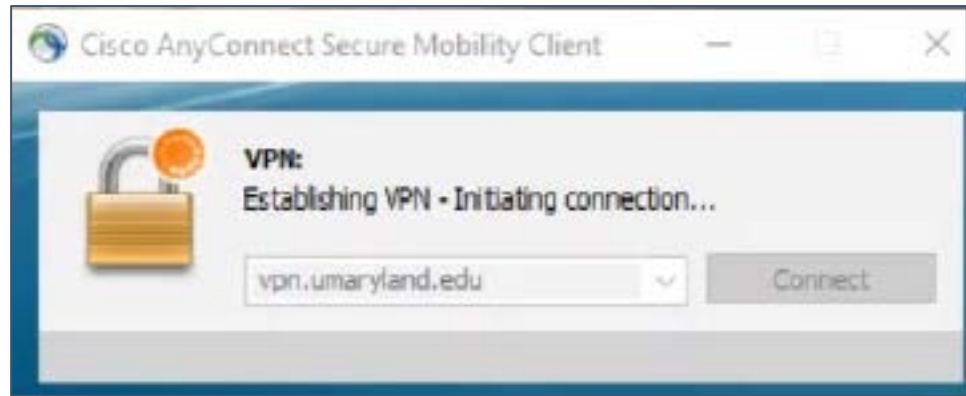

Click OK.

Below this are four input fields: "Group:", "Username:", "Password:", and "Enter DUO Key or the word push to use DUO app". The "Group:" dropdown menu is set to "Law". The "Username:" field contains "Username". The "Password:" field is empty. The "Enter DUO Key or the word push to use DUO app" field is empty. There are "OK" and "Cancel" buttons at the bottom right.

HOW TO USE VPN FOR LAW REMOTE DESKTOP CONNECTION (PC) with MFA/DUO

You will notice the Cisco AnyConnect Secure Mobility Client initiating a connection with the Virtual Private Network (VPN).

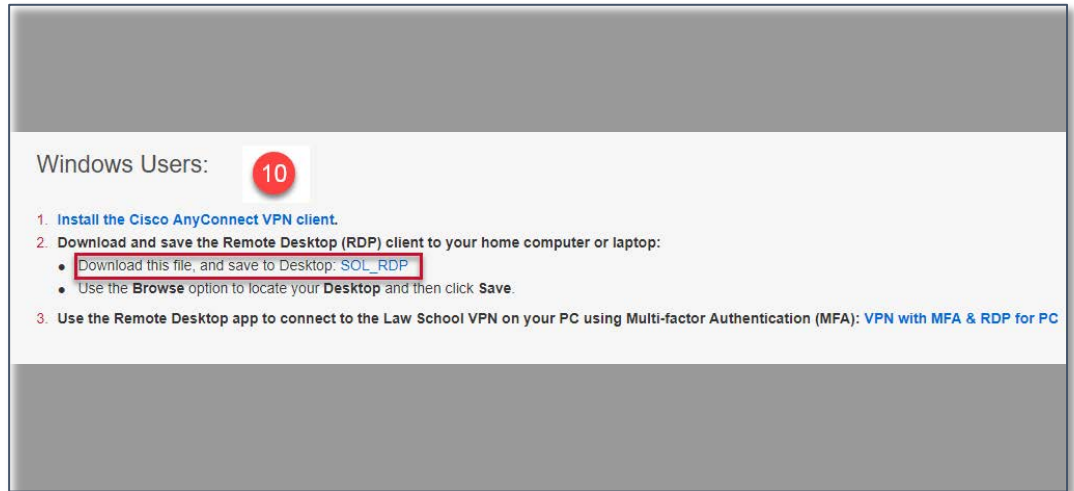

Once the lock icon shows a green check mark, your connection is established.

HOW TO USE VPN FOR LAW REMOTE DESKTOP CONNECTION (PC) With multi-factor authentication/DUO

If you haven't already done so, be sure to Save the Law School Remote Desktop Icon to the desktop of your home computer or laptop. Instructions for the process can be found [here](#).

Go to the Remote Desktop Icon on your home computer or laptop and connect remotely using the VPN connection.

To connect, remember to type:

Remote1law.umaryland.edu
or
Remote2law.umaryland.edu
in the Computer Name box.

You're all set!
