Transaction Code:

Graduate only, all self-supporting programs are excluded.

Summer Session, self-supporting programs may be excluded.

Signature certifies that student is degree-seeking, in good academic standing, and has met the prerequisites or other criteria set for screened or restricted programs of study. Undergraduate students enrolling through Inter-Institutional registration must be full-time students (when credits are combined) according to the home institution definition. Approval does not insure availability of a place in the course at the host institution.

## Taking courses at another University System of Maryland (USM) School

### **Spring or Fall Semester Only**

- 1. Complete the appropriate form—e.g., "Request to Take Courses at Another Law School" or "Request to Take Courses at a Graduate School." These forms are located on the law school website under "Forms" and on the Forms Shelves outside of Suite 280. Submit the form, along with a course description and the reason you wish to take the course outside of UM Carey Law, to the Office of Registration & Enrollment for approval. Students must demonstrate that the course is not comparable to one offered regularly at the Carey School of Law and that the course will significantly contribute to the student's legal education by providing a unique experience specific to the student's program of study.
- 2. Students must also submit a completed "Inter-Institutional Enrollment" (IIE) form. This form is located on the law school website under "Forms" and on the Forms Shelves outside of Suite 280.
- 3. Once approved, take the original IIE form to the host school's registration office to register for the course at that school. (The host school is the school at which the course is being offered.)
- 4. The Office of Registration & Enrollment (ORE) at UM Carey Law will keep a copy of each form and will register you at UM Carey Law for the off-campus credits. Registration for off-campus courses will be listed on your SURFS account as ABRP [or ABRG] courses. This code alerts the UMB Registrar that you are taking a course at another USM Institution.
- 3. You pay tuition only at your home institution—UM Carey Law. (Note: Inter-Institutional Enrollment is not applicable during the summer session. If you receive permission to take a course at another USM school during the summer session, you will pay tuition to that institution.)
- 4. Upon completion of your studies, you must arrange for an official transcript from the host school to be mailed directly to the Office of Registration & Enrollment at UM Carey Law in order for the transferrable credits to be applied to your record at UM Carey Law. Please be aware that if you take a course at another school during your final semester, you may not be able to graduate if we do not receive the official transcript by our deadline.

#### Special Notes

**University of Maryland University College** (UMUC)—if you wish to take a course at UMUC, you must first check with the UMUC Registrar to see if UMUC will accept inter-institutional enrollment for the course you wish to take.

Dual Degrees—inter-institutional enrollment may not be used for dual degree programs.

Inter-Institutional Enrollment is not applicable for the summer or winter session.
